March 26th, 2020 - montgomery proposes an agricultural revolution based on soil conservation instead of tilling the land and making it vulnerable to erosion we should put anic matter back into the ground'

'***dirt the erosion of civilizations***

May 19th, 2020 - everything returns to it if that doesn t earn dirt a little respect consider how profoundly soil fertility and soil erosion shaped the course of history at the dawn of agricultural civilizations the 98 percent of people who worked the land supported a small ruling

class that oversaw the distribution of food and resources'

**'book review dirt the erosion of civilization by david r
June 4th, 2020 - the introductory chapter of david r
montgomery s dirt the erosion of civilization covers
those basics nicely beginning with the touching tale
of how charles darwin in his last book working with
his sons demonstrated the vital role of earthworms in
soil formation and the maintenance of soil fertility
concluding that all the vegetable mould over the
whole country has passed many times through and
will again pass many times through the intestinal
canal of worms'**
