Nothing to Hide The False Tradeoff between Privacy
and

April 4th, 2020 - If you ve got nothing to hide
many people say you shouldn t worry about

government surveillance Others argue that we must sacrifice privacy for security But as Daniel J Solove argues in this important book these arguments and many others are flawed They are based on mistaken views 'Nothing to Hide The False Tradeoff between Privacy and

April 28th, 2020 - The struggle between individual privacy and national security is often debated and often the societal interest in security is seen to trump personal privacy However privacy should also be seen as a social value one that need not always

be at odds with security interests'

'Daniel J Solove Nothing to Hide The False Tradeoff

January 11th, 2020 - That information technology has eroded privacy has been a mon theme of the literature since the mid to late 1990s Time was when we could go about our daily business and enjoy considerable de facto privacy No cameras would document our trip to or browsing in the department store only a handful of people would notice us at all'
